

On-Premise Global

Laundry Chemical Dispensing System

The On-Premise Global laundry chemical dispensing system defines a new level of simplicity and versatility for the small laundry market. This exciting new dispenser is built on the industry leading On-Premise Plus platform with new features and increased capabilities. The operator friendly On-Premise Global remote control has the options of a quick, simple preset control for "Heavy/Medium/Light" soil select modes or the standard programming with increased 30 formula capability. With a choice of 1, 2, 3, 4, 5 or 6 pump dispensers, the On-Premise Global provides flexibility and economy.

Laundry Formula
Remote Control

SIB
Washer Interface Module

On-Premise Global
Dispenser with 1 to 6 Pump option

- New "Formula" or "Heavy/Medium/Light" soil select modes
- Bleach and Softener on/off buttons in soil mode
- For On-Premise washers with up to 80 kg (175 lb) wash load capacity
- Increased 30 wash formula capability
- 6 chemical capability
- 300 ml/min (10 oz/min) or 600 ml/min (20 oz/min) peristaltic pumps
- Multiple product volumes per wash formula
- Low voltage signal interface module
- Optional built-in flush manifold
- Password protected
- Programming: drain mode, signal mode, relay mode, soil mode
- Simple, multi-lingual menus (English, Spanish, French, German, Italian)

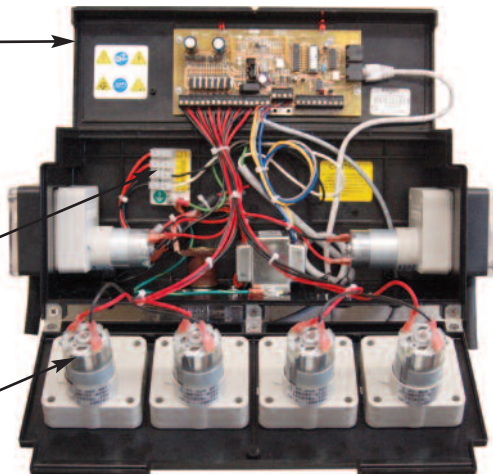

On-Premise **Global** Laundry Chemical Dispenser

Ease of service and installation, simple cable connections, convenient accessibility to internal wiring, and intuitive programming control gets you up and going quickly, and onto your next account.

Easy access case design
Fold down front panel and lid mounted circuit board provide convenient and easy access to all internal wiring

Multi-Voltage
Low Voltage Connection Terminal (115/208/ 230 VAC)

1 to 6 Pumps
300 ml (10 oz.) or 600 ml (20 oz.) pumps

Optional Flush Manifold

The flush manifold prevents washer corrosion and fabric chemical burn. The flush mode automatically activates and opens the system's built-in water solenoid when chemicals are dispensed into the manifold. A diluted flush is then provided to the washer through a single injection line. As an added precaution, built-in check valves prevent back-flow as well as cross-contamination of chemicals.

SIB - Washer Interface Module

The SIB washer interface module is designed around the needs of the technician to provide maximum versatility and to make your job fast and easy! The high voltage signal outputs are reduced to a safe 12V to make wiring simple. The SIB allows easy connection to any style washer.

Laundry Formula Remote Control

The On-Premise Global digital display remote allows for the versatility of two user formula select modes of operation. This enables the user the option of using the enhanced digital programming or the new quick soil select "Heavy/Medium/Light".

2 X 16 character LCD
"Heavy/Medium/Light" Soil select modes
Bleach and Soft on-off buttons

Increased 30 Formula Capability

The new versatile On-Premise Global remote offers multiple programming options including the standard programming option, with an increased 30 formula capability with unique run and delay times for each pump. This offers a greater control of chemical costs with better wash results over a wide range of soil loads.

New quick soil select mode "Heavy/Medium/Light"

On-Premise Global now offers a quick, simple formula select depending on the type of laundry load. This operation allows three different soil classifications "Light/Medium/Heavy" and the option of selecting bleach or softener. The soil select modes allows the operator to simply press the type of wash and the unit is ready to go.

Features

- Password protected
- File transfer function (remote to remote)
- 30 wash formula capability
- Multiple product volumes per wash formula
- Programming: drain mode, signal mode, relay mode, soil mode

ORDERING INFORMATION

On-Premise Global Dispensing Systems

Features Include: Plastic, water-tight case and cover, 30-formula capability, drain mode, signal mode, relay mode, flush mode, flow switch input, personalized access code, built-in load counter, washer interface module, variable signal input voltage, split common, automatic calibration and peristaltic pumps with tri-roller block. Option of 300 ml/min (10 oz/min) pump and/or 200 RPM 600 ml/min (20 oz/min) pump, 115/208/230V 50/60 Hz operation.

Part Number	Description
7055500	Top Assy, On-Premise Global - Liquid Dispenser with Remote Control, without Pumps
Note:	One standard system is universal for all voltage ranges and frequencies.
ON-PREMISE GLOBAL PUMP OPTIONS	
8255262	Peristaltic Pump, 300 ml/min (10 oz/min), 110 RPM, 24 VDC
8255362	Peristaltic Pump, 600 ml/min (20 oz/min), 200 RPM, 24 VDC
Note:	Option of 1 to 6 pumps
ON-PREMISE GLOBAL OPTIONS	
8053006	Manifold with 6 Checks Valves, 1/4 Barb
8053004	Manifold with 4 Checks Valves, 1/4 Barb

KNIGHT LIMITED WARRANTY

Knights controls and pump systems are warranted against defects in material and workmanship for a period of ONE YEAR. All Electronic Control Boards have a TWO YEAR warranty. Warranty applies only to the replacement or repair of such parts when returned to the factory with a KRA number, freight prepaid and found to be defective upon factory inspection. Rubber and synthetic rubber parts such as "O" rings, diaphragms, squeeze tubing and gaskets are considered expendable and are not covered under warranty. Warranty does not cover liability resulting from performance of this equipment nor the labor to replace this equipment. Product abuse or misuse voids warranty. Knight products are not for use in potentially explosive environments. Any use of our equipment in such an environment is at the risk of the user. Knight does not accept any liability in such circumstances.

KNIGHT DISCLAIMER

The information and specifications included in this publication were in effect at the time of approval for printing. Knight, LLC. reserves the right, however, to discontinue or change specifications or design at any time without notice and without incurring any obligation whatsoever.
